Operating Room Positioning Products
WHY DEVON™ POSITIONING PRODUCTS?

Positioning patients properly in the Operating Room is critical to providing the best care possible and protecting against complications such as pressure ulcers and nerve damage. These preventable injuries can be devastating to the patient and have significant consequences. Selecting the appropriate positioning devices for each procedure is a collaborative process for the perioperative registered nurse, surgeon and anesthesia provider.

Designed to aid in proper positioning and pressure distribution, Devon Positioning Products provide a complete offering to help position and protect patients in the Operating Room. You can trust Covidien to provide quality products, personalized service, education, and support.

Covidien has a direct U.S. sales force of service-driven professionals focused on Operating Room supplies in both the Acute Care and Ambulatory Surgery Center markets. Covidien distribution centers are strategically located throughout the U.S. in order to assure the shortest transit time possible when fulfilling orders. Devon Positioning Products are also available through all major medical/surgical distributors.

Partner with Covidien to develop the optimal Operating Room positioning portfolio to care for your patients.
